

WANTED: 12 Entrepreneurs Needed to be Multi Millionaires!

Join me in Zanzibar in October 2009 and you can be sure you are on your way to being very rich!

It's this simple: I am looking for 12 exceptional individuals, who have the work ethic, passion and desire, to become multi millionaires.

Could you be one? Do you have what it takes to be a multi millionaire? Do you have the self belief and personal drive to make things happen for yourself? Do you want to be part of a multi billion dollar future company and be able to say I was at the very first inaugural Leadership meeting in Zanzibar?

Winning in life

I learnt a long time ago, 'It's not where you start it's where you finish' that counts in life. I, like many people, came from humble beginnings. I was headed to be a 9-5 blue shirt worker, working for a Boss and working for the man FOR peanuts until I died with my golden watch in hand. I was destined not to enjoy the freedom and joys financial freedom can bring. My family history was about to repeat itself with me!

THEN: Someone did me a big favour whilst trying to do me down!

It was when I was 9 years old picking potatoes in the cold, wet, muddy, autumn in the UK. The rain came down so hard we the pickers were soaked, bedraggled and demoralized with 6 inch of mud on our boots. The farmers son, a snob who was only 12 years old, dressed with a cravat and flat cap, tweed jacket, looking down his long nose said: "This is why we (the aristocracy) will always run this country and you (looking at me) will always pick potatoes!"

Something inside me moved and I was certain he was wrong, as young as I was, I said 'NO! That's not going to be me!' This changed my life and I have never looked back with anything but thankfulness for his misguided arrogance.

YOU: Can I pass this favour on?

You may be one of several people we meet, all of them capable of becoming anything they want to be but held back by different factors:-

- Lack of self belief
- Lack of self confidence
- Seemingly no time to make a difference in your life
- No one to mentor you
- You do not set goals or dream big
- You may hang on to a small monthly cheque with the fear of loss being bigger than your dreams of gain
- Held back by friends and family acting in your best interest and ensuring you are kept at their level of being

You may spend a lot of money and time (like millions upon millions of others) on self development and self help books, CDs, DVDs, seminars and so forth. What are you doing with that knowledge? Knowledge is nothing without ACTION.

Whatever it is, if you are happy, OK, but my guess is you're reading this for a reason – right? So you have to ask yourself, 'Will I always be picking potatoes?' Is this what you want in life? Life is short and it is not a rehearsal!

40 + years in the making

Even so it took me 30 years to really understand what the word 'entrepreneur' really stands for.

What real financial freedom is all about. I was told to get a good job and build a career, I did this to the detriment of my family and lifestyle - 'workaholic' comes to mind. Yes I made millions of dollars but I was still picking potatoes for someone else - they were just bigger potatoes!

But when I stopped working for the company my pay cheque stopped. I had become an 'intrapreneur', hanging onto some sort of security with a job. Using my creativity, drive and work effort to make hundreds of millions of dollars for someone else! I was rich by other 'slave' standards but still a 'slave'.

An entrepreneur is a brave individual, who has NO fear, who puts him or herself on the line for what they believe in. They have vision, belief, courage, persistency, talent. They don't need hand holding as they are self starters. They swap SECURITY (which they know doesn't really exist) for FREEDOM, and are prepared to take what we refer to as risks to achieve. If you keep doing the same things you get the same result, so how come so many people are in their comfort zones?

Entrepreneurs are BRAVE and SMART and have a LOVE and passion for what they are doing. They believe in themselves and that abundance exists in the universe and that they have no limits!

Why meet me in Zanzibar?

Once I was told a true story by one of the greatest entrepreneurs I have worked for. A true story of how he encouraged 7 individuals to go on a weekend to Palm Springs with him to show them a way to become multi millionaires. They came and had to sleep on the floor of a little rented house. On the next morning he appeared and showed them a simple merchandising technique. He was laughed at, this was so simple how could it possibly make them multi millionaires? During that weekend he convinced these 7 people to use his technique and they followed his training. All of them became multi millionaires. They were not high level business people but ordinary people that followed the system with belief and desire. One was a check out lady at a supermarket.

To achieve anything in life it requires belief, focus, persistence and tenacity. Do what works and keep repeating it and repeating it and repeating it. Multi millionaires build systems and work them until the system delivers and delivers and delivers.

- Multi millionaires keep it simple
- Multi millionaires mix with successful people with the right mindset

If you believe you can , you can. Multi millionaires believed they were rich prior to being rich. It's a mindset.

I am looking for 12 Entrepreneurs to come with me on our inaugural Leadership trip to Zanzibar!

- A trip where you will learn to live life to the full
- A trip where we will plan and train for Enerjii to be #1
- A bonding trip like no other

Can you visualize it? Can you feel it? Can you see the lifestyle you will lead? Can you see the many lives you will change?

IN THE END WE ARE THE WRITER, DIRECTOR AND ACTORS IN OUR OWN FILM.

Your choice!

Come with us – be one of the 12 – you will not regret it I promise you.
